

Dental Nursing Diploma

Adult

From a general check-up to root canal work, as a dental nurse you will be required to have a reassuring and caring nature as it will be your job to look after the patients. You will also need great communication and organisational skills as you will be responsible for looking after the equipment and maintaining high levels of cleanliness. Successful completion of the course will enable you to become a qualified dental nurse and register with the General Dental Council.

New apprenticeship standards are being introduced to focus skills training more on specific career roles within industry. These government changes mean the apprenticeship skills development programme is written with employers ensuring you are much more work ready for a specific role by the time you complete your training.

As part of your course you will be required to be employed in a trainee dental nurse position. Your employer will give you all the hands-on practical experience you need to become a fully qualified dental nurse. You will need great communication and organisational skills, plus a caring manner to succeed in this industry.

You will be required to attend college on 1 day per week.

Completion of this course will allow you to progress on to further studies at other universities such as: BSc Dental Therapy & Hygiene or BSc (Hons) Dental Therapy.
