

# Sports Massage Level 3

Adult

The Level 3 Diploma in Sports Massage Therapy is focused towards those seeking to gain employment as a sports massage therapist working with the general public and athletes. The qualification consists of five mandatory units:

Anatomy and physiology for sports massage  
Principles of health and fitness  
Professional practice in sports massage  
Understand the principles of soft tissue dysfunction  
Sports massage treatments

Through this qualification you will develop the skills, knowledge and understanding needed to competently apply sport massage methods to dysfunctional tissue and in a pre, post, intra/inter and maintenance massage context. This includes professional practice, expected standards and related legislation and legal requirements. You will develop knowledge and understanding of anatomy and physiology related to sports massage and the principles of health and fitness which combined will equip you to better understand the athlete, the problems they may be incurring and how sports massage can help. In addition you will develop an understanding of the differences between soft tissue dysfunction and injury and the role that sports massage plays.
