# Digital Production, Design and Development – T Level Technical Qualification in Digital

**16-19**

The T Level in Digital Production, Design and Development is a two year Level 3 qualification for those who want to develop the software applications of the future. The course is designed to advance your understanding and knowledge of topics such as programming, coding, the use of data, and different delivery platforms in the digital industry.

During the course, students will learn the core knowledge and skills needed for entry into a range of digital occupations. The course includes an industry placement were you will be expected to work within industry alongside taught sessions within a college setting.

The core content of the course helps students understand data and digital systems, how software and business interact, security, testing, planning, and legal issues. Students then build on this by developing specialist skills in understanding user needs and designing and developing digital systems.

This course is suitable for anyone wanting a career in software production and design. Students can progress into roles such as web developer, web designer, software developer, computer games tester, computer games developer, e-learning developer, and user experience (UX) designer. Students can also use this T Level to do a related higher-level apprenticeship or degree course.
